https://www.rehfid.com/

Timeline

We estimate this project should take about 1 week till completion of prototype

Aftercare

Should the client choose to continue with full product development, the cost would be the following:

1 Developer - $800/day

2 Developers - $1600/day

3 Developers - $2300/day

Fee Summary

Prototype Developement $250.00

This encompases getting a working prototype up an running. Dead simple not actually "working" but will immitate the feel of end product

ITEM NAME	UNITS	RATE (CAD)	TOTAL
Prototype demonstrating how a customer would use REHF ID	1.0	$250.00	$250.00

| | | **Total** | **$250.00** |
